

PROJE ESNASINDA ALDIĞIM HATALAR

1. The parameters dictionary contains a null entry for parameter 'id' of non-nullable type 'System.Int32' for method 'System.Web.Mvc.ActionResult EditStudent(Int32)' in 'UniversitySocialAreaManagementSystem.Controllers.AdminController'. An optional parameter must be a reference type, a nullable type, or be declared as an optional parameter.
2. 23502: null value in column "name" of relation "students" violates not-null constraint

DETAIL: Detail redacted as it may contain sensitive data. Specify 'Include Error Detail' in the connection string to include this information.

Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

Exception Details: Npgsql.PostgresException: 23502: null value in column "name" of relation "students" violates not-null constraint

DETAIL: Detail redacted as it may contain sensitive data. Specify 'Include Error Detail' in the connection string to include this information.

3. Exception Details: Npgsql.PostgresException: 23505: duplicate key value violates unique constraint "Students_pkey"

DETAIL: Detail redacted as it may contain sensitive data. Specify 'Include Error Detail' in the connection string to include this information.

4. Exception Details: System.Data.Entity.Core.OptimisticConcurrencyException: Store update, insert, or delete statement affected an unexpected number of rows (0). Entities may have been modified or deleted since entities were loaded. See <http://go.microsoft.com/fwlink/?LinkId=472540> for information on understanding and handling optimistic concurrency exceptions.

5. 23503: update or delete on table "students" violates foreign key constraint "community_president_id_fkey" on table "communities"

DETAIL: Detail redacted as it may contain sensitive data. Specify 'Include Error Detail' in the connection string to include this information.

Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

6. Value cannot be null.

Parameter name: source

Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

Exception Details: System.ArgumentNullException: Value cannot be null.

Parameter name: source

7. The resource cannot be found.

Description: HTTP 404. The resource you are looking for (or one of its dependencies) could have been removed, had its name changed, or is temporarily unavailable. Please review the following URL and make sure that it is spelled correctly.

- 8.

42703: column Extent1.Event_event_id does not exist

POSITION: 141

Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

9. Description: HTTP 404. The resource you are looking for (or one of its dependencies) could have been removed, had its name changed, or is temporarily unavailable. Please review the following URL and make sure that it is spelled correctly.

10. Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

11. Exception Details: System.InvalidOperationException: The model item passed into the dictionary is of type 'System.Collections.Generic.List`1[EntityLayer.Concrete.CommunityRegistration]', but this dictionary requires a model item of type 'System.Collections.Generic.IEnumerable`1[EntityLayer.Concrete.Community]'.

12. There is no ViewData item of type 'IEnumerable<SelectListItem>' that has the key 'd_id'.
Description: An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.
